

Joan Diaz Estigarribia

Frontend / Fullstack Developer | React | Next.js | Node.js | TypeScript
joan.diaz094@gmail.com | [linkedin.com/in/joan-ignacio-diaz-estigarribia](https://www.linkedin.com/in/joan-ignacio-diaz-estigarribia)

PROFESSIONAL PROFILE

Developer with 4+ years of experience building scalable, product-oriented web applications. Specialized in modern frontend architectures, API integrations, and performance optimization in high-traffic production environments. Experienced working with Node.js backend architectures and relational databases, participating in technical decision-making and agile team coordination. Focused on clean architecture, testing, and end-to-end development.

PROFESSIONAL EXPERIENCE

Frontend Web Developer

INNEW Software Company

September 2021 – Present

- Developed more than 30 production web applications.
- Designed scalable frontend architectures and reusable component systems.
- Integrated REST and GraphQL APIs.
- Optimized application performance (loading times, lazy loading, rendering optimization).
- Participated in technical decision-making, estimations, and agile coordination processes.
- Worked on large-scale SaaS platforms focused on business operations and ecommerce environments.

Fullstack Developer

Freelance Projects

May 2021 – Present

- Architected and developed fullstack applications.
- Designed and implemented REST APIs and relational database models.
- Implemented automated testing strategies (unit and E2E testing).
- Managed containerization and cloud deployments.
- Optimized application performance and applied clean architecture principles.

EDUCATION

Currently pursuing a Technical Degree in Programming at Universidad Tecnológica Nacional (UTN) – Resistencia, Chaco.

TECHNICAL SKILLS & TOOLS

Frontend:

- JavaScript (ES6+), TypeScript, React, Next.js, Vite, VTEX IO, GraphQL, REST APIs, Tailwind CSS, shadcn/ui, Figma

Backend:

- Node.js, NestJS, TypeORM, PostgreSQL, REST API Design, JWT Authentication, Modular Architecture

Testing:

- Vitest, Playwright (Unit Testing, E2E)

DevOps & Cloud:

- Docker, CI/CD (GitHub Actions, GitLab CI), Vercel, Railway

Herramientas:

- Git, GitHub, GitLab, SCRUM, Jira
